記

Dear President of MSJ,

Greetings.

This letter concerns the Satellite Conferences for ICM 2014.

The local organizing committee of ICM 2014 is now receiving proposals for the Satellite Conferences for ICM 2014, which will be held during August 13-24, 2014 in Seoul. We believe that Satellite Conferences are the most important events for success of the Congress. So we would like to have Satellite Conferences on diverse fields of mathematics and their applications which would represent the spectrum of mathematical research in Asia. For that, we ask you to distribute our call for proposals for Satellite Conferences for ICM 2014 among members of the Mathematical Society of Japan. Detailed information on how to prepare and where to submit the proposal can be found at the website of ICM 2014, whose URL is <http://www.icm2014.org/sc>.

We would appreciate your help very much and look forward to cooperating with you for a successful ICM.

With best regards,

Hyeonbae Kang

Chair, The Parallel Scientific Activities Committee of the ICM 2014
